IN A SENTENCE: Shape-shifting orchestral rock music for people who like dancing while thinking.

BIOGRAPHY:

They've been called everything from "pure art rock sunshine" to "deliberately obnoxious." Battlehooch unabashedly walks the line between pop sensibility and avant garde experimentation, bending the chaotic into the melodic and evoking passionate responses in everyone that hears them.

For their self-titled sophomore album, Battlehooch sought to capture the raw energy of their infamous live show without sacrificing their characteristic musical sophistication. After polishing new material on tours across the west coast, the band returned home to San Francisco to lay the tracks down live in the studio. The result is an incredibly rich and dynamic record that recalls musical shapeshifters like Os Mutantes, Fiery Furnaces and The Mothers of Invention while never shying away from the opportunity to roll out sweet vocal melodies and considerate songwriting. See them live on their Summer 2010 national tour!

PRESS:

"Engaging, melodic mini-epics that further blossom in the live setting." - KQED/Bay Bridged Music Blog

"Fearlessly experimental, boundlessly energetic.... ...you can't help but wonder that the weather's like on their planet." - NME Magazine

"Every person in the crowd was moving to the music--it was hard to resist. Even after they finished, my foot was tapping to the ghost of their set." - LA Record

"A prime example of the kind of rebellion more bands should engage in." -PopMatters
